Let’s discuss Internet Governance!
EuroDIG Virtual Meeting
28 – 30 June 2021

Let’s discuss Internet Governance!
What is EuroDIG

The European Dialogue on Internet Governance (EuroDIG) is an open multi-stakeholder platform to exchange views about the Internet and how it is governed. Created in 2008 by several organisations, government representatives and experts, it fosters dialogue and collaboration with the Internet community on public policy for the Internet. Culminating in an annual conference that takes place in a different European city. It is the place to start and to facilitate a discussion not to finalise it and therefore a decision shaping not a decision making initiative. EuroDIG ‘Messages’ are prepared and presented to the Internet Governance Forum (IGF).
