Host 2022

In cooperation with

Institutional Partners

Set the sails right!

20 – 22 June 2022
Trieste, Italy

Hybrid meeting

The date for EuroDIG 2022 is confirmed, but how the situation with regard to the pandemic will look like next year is uncertain.

We understand that there is a great desire to meet in person and have informal exchanges.

Therefore, EuroDIG 2022 will be planned as a hybrid format, with both, an in-person event in Trieste and additional efforts to connect remote and onsite participants.

We understand there is a great desire to meet in person.

What is EuroDIG?

Launched in 2008, EuroDIG, the European Dialogue on Internet Governance, is a unique annual event that brings together Internet stakeholders from throughout Europe (and beyond), and from across the spectrum of government, industry, civil society, academia and the technical community.

Stakeholders and participants work over the course of each year to develop, in a bottom-up fashion, a dynamic agenda that explores the pressing issues surrounding how we develop, use, regulate and govern the Internet. EuroDIG participants come away with broader, more informed perspectives on these issues and new partners in responding to the challenges of the information society.

The 15th EuroDIG will take place on 20 – 22 June 2022.

European Dialogue on Internet Governance brings together Internet stakeholders from throughout Europe.

This includes a Day 0 on which organisations and initiatives can present their work, and engage with the community, followed by two full days of multi-stakeholder workshops, high-level sessions, and new formats.

Get involved!

Every year EuroDIG takes place in another European country thus, bringing in new people constantly. The local community always plays a big role in the planning process.

EuroDIG is not a usual conference organized top-down by a small committee. It is a platform and process where **YOU** set the agenda and shape the discussion. **YOU** are invoked to participate in the call for issues! **YOU** are invited to the public planning meeting and review a draft programme! **YOU** are welcome to join the Org Teams and take responsibility for a session! **YOU** should take the floor during the conference and make your voice heard!

YOU shape the agenda. The EuroDIG programme planning process is always open, always inclusive and it is never too late to get involved!

Participate in the call for issues now and visit www.eurodig.org

What are the results of EuroDIG?

EuroDIG is a decision shaping not a decision-making body and therefore the place to start and to facilitate a discussion but not to finalise it. Results are influencing public policy across the continent about the governance of the Internet.

After each annual event, “Messages” from all sessions are compiled and submitted to the global Internet Governance Forum in order to share the European perspective.

Results are influencing public policy across the continent about the governance of the Internet.

The Youth Dialogue on Internet Governance (YOUthDIG) is a yearly pre-event to the European Dialogue on Internet Governance (EuroDIG) aimed to foster active youth participation. About 30 young people from the pan-European region with a strong interest in Internet governance, digital policy and cooperation are working together to draft and advocate for the youth messages.

You can have a look at the Youth Messages from 2021 at: https://eurodigwiki.org/wiki/YOUthDIG_2021

YOUthDIG is a yearly pre-event to EuroDIG aimed to foster active youth participation.
