EuroDIG
European Dialogue on Internet Governance

Internet in troubled times: risks, resilience, hope

**New date:
19 – 21 June 2023
Tampere, Finland**

Get involved!

What is EuroDIG?

Launched in 2008, EuroDIG, the European Dialogue on Internet Governance, is a unique annual event that brings together Internet stakeholders from throughout Europe (and beyond), and from across the spectrum of government, industry, civil society, academia and the technical community.

Stakeholders and participants work over the course of each year to develop, in a bottom-up fashion, a dynamic agenda that explores the pressing issues surrounding how we develop, use, regulate and govern the Internet. EuroDIG participants come away with broader, more informed perspectives on these issues and new partners in responding to the challenges of the information society.

> **European Dialogue on Internet Governance brings together Internet stakeholders from throughout Europe.**

Get involved!

Every year EuroDIG takes place in another European country thus, bringing in new people constantly. The local community always plays a big role in the planning process.

EuroDIG is not a usual conference organized top-down by a small committee. It is a platform and process where **YOU** set the agenda and shape the discussion. **YOU** are invoked to participate in the call for issues! **YOU** are invited to the public planning meeting and review a draft programme! **YOU** are welcome to join the Org Teams and take responsibility for a session! **YOU** should take the floor during the conference and make your voice heard!

> **YOU shape the agenda. The EuroDIG process is always open, always inclusive and it is never too late to get involved!**

What are the results of EuroDIG?

EuroDIG is a decision shaping not a decision-making body and therefore the place to start and to facilitate a discussion but not to finalise it. Results are influencing public policy across the continent about the governance of the Internet.

After each annual event, "Messages" from all sessions are compiled and submitted to the global Internet Governance Forum in order to share the European perspective.

> **Results are influencing public policy across the continent about the governance of the Internet.**

Which issues should be discussed?

Please make your submission until **31 October 2022**. We ask for issues (not for session proposals) of high interest to many stakeholders across Europe. In order to structure the proposals we suggest the following categories:

- Access & literacy
- Development of IG ecosystem
- Human rights
- Innovation and economic issues
- Media & content
- Security and crime
- Technical & operational issues
- Cross cutting / other issues

After the call for issues you can still get involved in the programme planning process at any time. Find out more at our website.

YOUthDIG
Youth Dialogue on Internet Governance

Drafting YOUthDIG Messages, The Hague, 2019

The Youth Dialogue on Internet Governance (YOUthDIG) is a yearly pre-event to the European Dialogue on Internet Governance (EuroDIG) aimed to foster active youth participation. About 30 young people from the pan-European region with a strong interest in Internet governance, digital policy and cooperation are working together to draft and advocate for the youth messages.

YOUthDIG is a yearly pre-event to EuroDIG aimed to foster active youth participation.

You can have a look at the Youth Messages from 2022 at: https://eurodigwiki.org/wiki/YOUthDIG_2022.

Participants can apply for travel funds. The application period for YOUthDIG will start in January 2023.
